

## Pan American Airways Route 9.

The FAM-18/LATI substitute service from October 1942 to May 1943.

Route 9 was interleaved with Route 10 and provided the FAM-18 mail service across the Atlantic during the Winter months when the Northern route (Route 3) between New York and Foynes via Shediac and Botwood could not be flown due to cold weather conditions. In addition to FAM-18, this route also provided the "LATI substitute" service between Axis-controlled Europe and South America, although the "LATI substitute" mail handling was governed by the San Juan Agreement. This required "LATI substitute" mail from Lisbon to be carried over to San Juan for Allied Censorship before being returned by local Pan American services to Natal and onward into South America.

Route 9 flew the following clockwise-only path:

New York – Bermuda – Horta – Lisbon-Foynes, then Foynes - Lisbon – Bolama – Fisherman's Lake – Natal – Belem – Port of Spain (Trinidad) – San Juan - Bermuda – New York.

In common with Pan American practice, the outward (short) flights to Foynes were designated as odd numbers beginning with 9001 and the (long) return flights from Foynes to New York carried even numbers beginning with 9002.

The first flight on Route 9 in 1942 was 9001 which left New York on the 17<sup>th</sup> of October 1942, returning via Bermuda from Foynes and Lisbon (9002) on the 27<sup>th</sup> of October. The last flight of the winter season was 9061, leaving New York on the 17<sup>th</sup> of May 1943, arriving in New York (9062) on the 27<sup>th</sup> of May 1943.

If the previous pattern of flights re-starting in the following year was followed, Route 9 would have been re-established in October 1943. However, the Winter 1943/44 route for the FAM-18 service was changed so as to remove the call(s) at Bolama, replacing them with call(s) at Dakar, Senegal; the new route being numbered as Route 13. (See Route 13).

The following records are missing from the Archive: Flights 9001/2 to 9007/8 inclusive; 9035/6. However, dates for these can be confirmed from other sources, and since flight 9035 was the flight of "Yankee Clipper" that ended in disaster with the crash at Lisbon, it is perhaps understandable that the record is not to be found. 9036 did not exist because the aircraft was lost.

GENERAL REMARKS: Mail weights listed are local loads only.

\*While taxiing to takeoff area, starboard wing dipped in water. Plane returned to base at BDA for inspection which disclosed looseness in aileron fittings. It was decided to return plane to NBA on a non-revenue flight for repairs and another plane was dispatched on 4/22/43 as Trip 9053 X to NBA in order to resume balance of original trip.

\*\*These passengers were offloaded at BDA from previous arrival of Trip 9053.
